

## Vibrabsorber **9V-SR**

This range of mounts comprises:

A spring high elasticity and very low natural frequency  
An incorporated levelling system  
A non-slip rubber base  
A spare Sylomer to isolate mid and high frequencies comes standard

### TECHNICAL CHARACTERISTICS

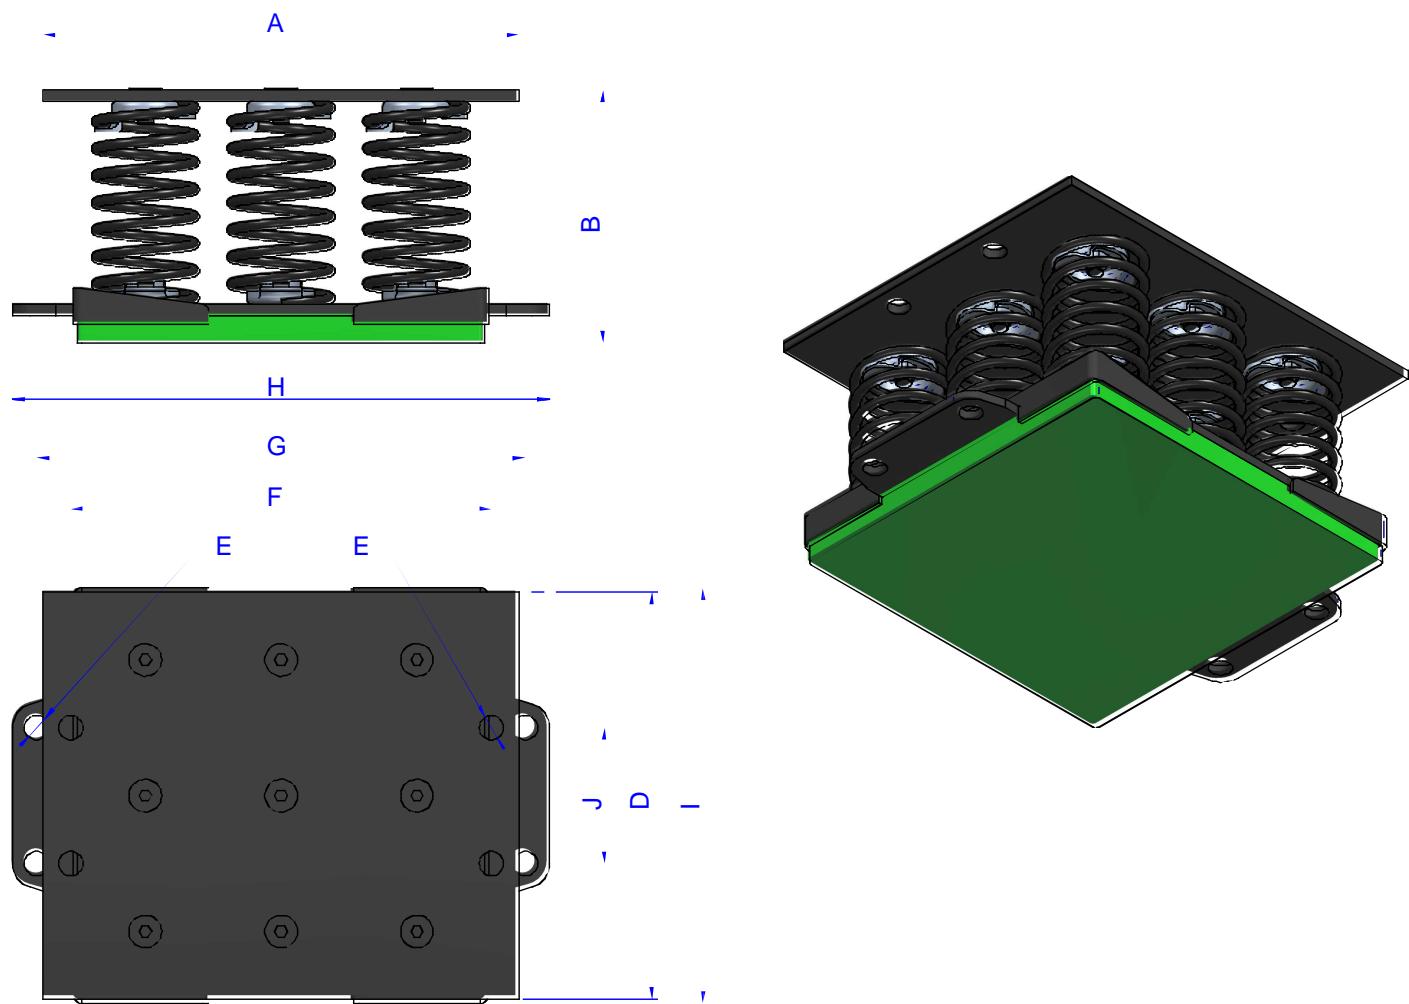

The mounts are able to reach low natural frequencies from 3 to 5 Hz. The spring combined with sylomer® is able to provide high isolation at low and medium frequencies.

The curves are showing the deflection and natural frequencies according to the load of the spring.  
Temperature working range from -30 to 70°.  
Short term higher temperatures are possible.
